

Search Team Update September 12th , 2021

Discussion/Agenda Items:

1. Opened in prayer
2. Discussed the active candidates to date.
3. As of today, we have several remaining candidates. Today we assigned primary Search Team focus for each of these candidates
4. We will each do a deep search for our candidates online. Listen to more sermons. No need to contact candidates just yet
5. If the individual team members find additional info on each candidate that would benefit the rest of the team to review, put that information into the candidate folders on the shared drive, and send the appropriate link(s) to the team
6. Important: We need to decide what date we close the application period. It was not decided yet, but will need to be discussed soon, at the appropriate time
7. Collected time from the team for the week

Actions:

1. **Entire Team** - Review your assigned candidates in more detail. This includes: reviewing their social media details, reviewing a larger number of sermons. If there is anything that disqualifies them, please make sure to let the team know
2. **Entire Team** - As relevant details emerge for each of our remaining active candidates, put those details in the appropriate candidate's folder on the shared drive and send the link out to everyone on the team
3. **Member** - Contact Luke Hendrix to get more details about what other candidates might be out there, outside of the preliminary requirements that we're looking for
4. **Entire Team** - Pray for the search and for our church during this process
